## Introduction

AdvancED's Self Assessment (SA) diagnostic is based on the AdvancED Standards of Quality, which serves as the foundation of the accreditation and continuous improvement process. The SA is a valuable tool for collaboratively engaging staff members and stakeholders in purposeful, honest dialogue and reflection to assess the institution's adherence to the Standards, and guide its continuous improvement efforts. The SA includes the institution's self-ratings of and the evidence cited for each of the indicators, comments that explain the indicator's ratings and an overall narrative for each Standard. The results of the SA are reviewed by the External Review Team as one essential component of the preparation process for the institution's External Review.

We provide a plethora of resources and support services such as: certified, highly-qualified teachers, a challenging curriculum which includes a foreign language and the fine arts, materials, facilities, childcare services, academic support and tutoring, technology, and transportation, to name a few, to aid our students in their education. a hug to giving a gentle reminder of the rules, a helping hand with homework, listening to them read, or checking in with a student who is trying to overcome a challenge, everyone helps. We believe we all need to work together to provide what our students need to be successful. Collectively, we are stronger.

Over the past five years, Liza Jackson has significantly improved its technology resources in the building for both teachers and students. In 2010 we established a five year technology plan to become more proactive and forward thinking with technology acquisition. We review and update the plan each school year. We currently have three computer labs with 26 - 30 computers in each lab and two laptop carts, each housing 30 laptops and a printer. All core classrooms and most support classrooms are equipped with an interactive board, projector, document camera and a teacher laptop; some classrooms also have a desktop computer. All students have a technology class that meets in one of the three technology labs. Liza's future plans include proactively acquiring what is needed to meet the upcoming change to computer-based state testing and electronic textbooks.

Liza Jackson is founded on research-based curriculum and data-driven instruction. The administration and instructional staff consistently utilize a variety of assessments to modify instruction based on the results obtained from the analysis. To ensure validity, the results from these assessments and trends over time are compared not only to each other but to other comparable schools. This comparison allows us to further analyze our data and apply the results to enhance the quality of education for all students.

Teachers are routinely trained and given professional feedback from walk-throughs and formal observations. Professional development in the form of training sessions, feedback, coaching, and mentoring are systematically provided to assist in our staff's professional growth.

All Liza Jackson stakeholders are continually informed of school and student performance through a variety of sources including, but not limited to the following: school website, teacher websites, classroom newsletters, reports, automated phone messages, banners, conferences, and personal contacts. Our goal is to enhance our communication by also sharing the school climate survey results with all stakeholders.
