

Audition Tips

- Introduce yourself before you start your monologue. Say something like “Hello! My name is Sam and I’m trying out for the main character”.
- Project! It’s super important that you can speak super loud on stage. Show us how loud you can speak during your introduction and monologue. It may feel silly to talk in such a loud voice but you can never be too loud in theatre!
- Be confident. If you can’t really be confident then pretend that you are confident.
- Have fun and smile!
