

Bringing Families **Back Together**

Fallen **Heroes**

Wounded **Warrior**

Never **Alone Network**

The Comfort Crew for Military Kids (CCMK) is designated as a 501(c) (3) public charity. CCMK has created a comprehensive set of resources created for school age children that address specific challenges associated with growing up in a military family: multiple deployments, reconnecting as a family after a time of separation, visible and invisible injuries of a returning parent, frequent moves, feelings of isolation, and grief over the loss of a family member. CCMK provides programs and resources all around the world at no cost to military families.

Whether visiting with a military child at school, providing a Comfort Kit to help with the obstacles they face, or educating our community about ways to support their resiliency, our goal is to let these children know they do not have to shoulder the burdens of military life on their own — we are **With You All the Way!**

## Programs

### Bringing Families Back Together

Supports children throughout the cycle of deployment

### Fallen Heroes Program

Provides comfort and information about loss and grief

### Wounded Warriors Program

Helps children cope when a family member is injured

### Never Alone Network

Offers ways for military kids to connect
